The tale is filled with allusions to Dodgson's friends. The tale plays with logic in ways that have given the story lasting popularity with adults as well as children. It is considered to be one of the most characteristic examples of the genre of literary nonsense, and its narrative course and structure have been enormously influential, especially in the fantasy genre. --Wikipedia Notice: This Book is published by Historical Books Limited ( as a Public Domain Book, if you have any inquiries, requests or need any help you can just send an email to This book is found as a public domain and free book based on various online catalogs, if you think there are any problems regard copyright issues please contact us immediately via.
