Brand New Book ***** Print on Demand *****.Most of us at the very least wonder about our own immortality and many people are convinced that there is something beyond death, beyond the blackness of the grave. We are taught that the universe is essentially moral and that there are absolute human values. But increasingly, science presents us with a picture of a much more mechanical universe in which there is no absolute morality and man has no purpose and no personal responsibility except to his culture and his biology. We no longer live in an age when faith is sufficient; we demand data, and we are driven by data. Many people believe that in the NDE we are given glimpses of Heaven (or Hell). But it is just as reasonable to assume that it is the NDE itself which may have shaped our very ideas about Heaven and Hell. The experiences described in this book are all first-hand accounts from people who wrote...
