## DEEP ECOLOGY AND WORLD RELIGIONS: NEW ESSAYS ON SACRED GROUND

State University of New York Press. Paperback. Book Condition: New. Paperback. 308 pages. Dimensions: 9.0in. x 5.9in. x 0.7in. Parallels and contrasts values from world religions and those proposed by the environmental perspective of deep ecology. Bringing together thirteen new essays on the important relationship between traditional world spirituality and the contemporary environmental perspective of deep ecology, this landmark book explores parallels and contrasts between religious values and those proposed by deep ecology. In examining how deep ecologists and the various religious traditions can both learn from and critique one another, the following traditions are considered: indigenous cultures, Hinduism, Buddhism, Taoism, Confucianism, Judaism, Catholicism, Islam, Protestantism, Christian ecofeminism, and New Age spirituality. One of the most exciting new developments in the general field of environmental studies is a dialogue between religion and ecology. It also promises to be one of the most efficacious, because practically the only thing that can effectively resist the juggernaut of amoral consumerism is an environmental ethic grounded in religious belief. This volume contributes to the effort to develop an environmental consciousness--and conscience--from the conceptual resources of several world religions and indigenous traditions of thought. The editors have here assembled some of the most celebrated and authoritative voices in this timely new domain of discourse. -- J. Baird Callicott, author of *Beyond the Land Ethic: More Essays in Environmental Philosophy* Using the lens of deep ecology, the authors discuss values and practices of religious traditions that engage deep ecology principles, providing both critique and reflection that sharpen the conversation. These writers affirm that how we treat nature is a moral question, calling for committed engagement from a thoughtful and heartfelt place. Inspired by the increasing spiritual and ethical sensibilities awakened by the eco-crisis, this book extends the call to act openly, honestly, critically, contritely, intelligently, and joyously in...
