## POLITICAL RESTRICTIONS ON OPERATIONAL FIRES IN THE POST WORLD WAR II ENVIRONMENT

[DOWNLOAD](#)

BiblioScholar. Paperback. Book Condition: New. Paperback. 58 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This monograph asserts that the United States military conducted World War II with few restrictions on its firepower beyond those imposed by the International Rules of War. An unlimited war justified unlimited fires, including the strategic use of atomic bombs in August of 1945 to end the conflict. However, World War II proved an anomaly in the twentieth century as America reverted in the post war period to conducting limited wars. Absent a threat to national survival, policy makers ruled out the use of nuclear weapons as a serious option at the strategic level. At the tactical level, commanders had a full array of mortars, tube artillery, and air support. This closely replicated both the concept and effects of what was available to their World War II predecessors. Yet, in limited conflicts, the use of these weapons developed implications beyond their tactical battlefield effects. The monograph examines how strategic policy makers shaped the battlefield for operational fires. At one extreme, the fear of escalation provided an upper limit for field commanders in Korea and Vietnam. At the lower end of the scale, fires previously considered solely tactical in nature had operational and strategic consequences. Stability and support operations (SASO) like the United States Marine Corps intervention in Beirut in the early 1980s came with limitations on commanders ability to employ operational fires. Commanders involved in SASO faced the difficulty of using their weapons without provoking charges of disproportionate response. The monograph also discusses the effect of increased connectivity of the global information environment. For commanders after the Korean War, the results of choices they made were instantly communicated to a worldwide audience. Thus, weapons previously thought to reside solely in the tactical arena now carried an operational,...
