Government Accountability Office, 2006 OCLC Number: (OCoLC)66902217 Subject: Postwar reconstruction -- Iraq. Excerpt: . . . recommended that the Secretary of State address the issue of sustainability in the water and sanitation sector. State agreed with our recommendation and stated that it is currently working with the Iraqi government to assess the additional resources needed to operate and maintain water and sanitation facilities that have been constructed or repaired by the United States. In the electricity sector, the Iraqis capacity to operate and maintain the power plant infrastructure and equipment provided by the United States remains a challenge at both the plant and ministry levels. As a result, the infrastructure and equipment remain at risk of damage following their transfer to the Iraqis. In our interviews with Iraqi power plant officials from 13 locations throughout Iraq, the officials stated that their training did not adequately prepare them to operate and maintain the new U. S. -provided gas turbine engines. Due to limited access to natural gas, some Iraqi power plants are using low-grade oil to fuel their natural gas combustion engines. The use of oil-based fuels, without adequate equipment modification and fuel treatment, decreases the power output of the turbines by up to 50 percent, requires three times more maintenance, and could result in equipment failure and damage that significantly reduces the life of the equipment, according to U. S. and Iraqi power plant officials. U. S. officials have acknowledged that more needs to be done to train plant operators and ensure that advisory services are provided after the turnover date. In January 2006, State reported that it has developed a strategy with the Ministry of Electricity to...
